Tweets!

- [@rjacquez](#) Thank you, RJ. And [@KnowledgeBishop](#). Today's transcripts were just uploaded. Also have them for prev chats. <http://bit.ly/a8Xwi9> about 58 mins ago
- [@ivanwalsh](#) Thanks for RTs about the chat! [about 1 hour ago](#)
- [@ermphd](#) That was odd, wasn't it? For Plan B, think we could jump over to the FB page and blog. [#tcchat about 1 hour ago](#)
- Thanks again to all who participated and viewed the [#tcchat](#) sessions! [about 1 hour ago](#)
- List of participants for week 3 of [#tcchat](#) avail here: <http://bit.ly/bfLfkV> about 1 hour ago
- Transcripts for week 3 of [#tcchat](#) avail here: <http://bit.ly/a8Xwi9>. Topic: Managing and Organizing Troubleshooting Info on the Web [about 2 hours ago](#)
- [@documentors](#) Thank you for adding me to your list! [about 3 hours ago](#)
- [@LinkedMedia](#) Thank you very much for dropping by [#tcchat](#) this evening!!! Was great to have some mktg input! [#tcchat about 5 hours ago](#)
- [@mojoneill](#) Why sure. One can never have too many dreams. [#tcchat about 5 hours ago](#)
- [@mojoneill](#) Thank you once again! Enjoyed your comments, as always! [#tcchat about 5 hours ago](#)

Out with the old; in with the new

Exciting times to be a tech writer. Touchscreens, social media, HTML5, content management,

Vote for #tcchat Topic Discussions!

Included below is a poll that will help us determine the priority of topics for upcoming chats. As you can see, there are many. Please choose the top three that you would like to discuss. We'll plan the schedule from there. We may also have an "open mic" chat periodically. However, as there are so many topics, there is an additional option. You can pose a question or topic any day. Just use the [#tcchat](#) tag and call it the Topic of the Day.

Which *three* of the following topics would you most like to see discussed on #tcchat?

- ☐ Content curation
- ☐ Mobile: developing content
- ☐ Agile programming
- ☐ User-generated content
- ☐ Video in docs
- ☐ Content management
- ☐ HTML5
- ☐ Hardware: touchscreens, roll-up & bendable screens
- ☐ Search and SEO
- ☐ User research on Web: opportunity? Impact on docs?

Spotlight

October is Twitter month here at 2moroDocs! I'll be including posts about using it and will (finally) be launching some webinars I started working on this past summer.

This site will also continue to be a source of information for [#tcchat](#). I've added a new section all about it. Check the menu!

We're already into week 3! The topic for this coming Thursday/Friday is: Managing and Organizing Troubleshooting Information on the Web.

#MagicHappens

It seems like something new comes out just about every day. In this section, I'll post some items that I think are worth thinking about, as in: how can I use these for docs?

There are plenty of ideas in this video that can be applied to docs. Run this in full-screen mode and let your imagination take over.

Computing isn't just about sitting at a desk using a mouse and keyboard anymore. The following article shows examples of new ways to access computers using body movement and other methods.

[Think Outside the Computer: Touchscreens, HTML5, and Flash](#)

Thanks to a tweet by Tristan David Bishop (@KnowledgeBishop), I found out about this app, which takes a Twitter feed and makes a custom newspaper for it. Imagine how you might use this with your existing doc feeds. Why not put a tech support feed in a page? I think I'll need to experiment a bit myself, but in the meantime, take a

look.

.....

Touchscreens, touchscreens, touchscreens. You've already seen them on iPhones and iPads in particular. But what about ones that are bendable and rolled up? Yep. It's possible. Look at this article.

[Touchable Screens Get Touchy-Feely](#)
